Coming soon: release date to be added to the FTP site	We will add the release date for each file in our data release, in addition to the "last modified" date that is already provided. Infrequently, ClinVar will modify files after their release, to remove PII that was inadvertently included in records submitted to ClinVar. The addition of the release date will allow users to distinguish between the date the file was last touched by ClinVar and the date of the original release.
